

I think trying to get XM Radio off the air because they are giving people what they need is very nasty to do .I drive truck for a liveing and I have XM Radio in my Truck and I was so happy when they added the Weather stations. The weather is so very important to all Truck driver across the country. What the NAB is trying to do is very very nasty. They need to just leave XM Radio alone.XM Radio helps me when I get tried from driving and I know it helps all of us Truck Driver out there. I stand by XM Radio 200%. NAB back off and leave XM Radio alone. Shame on you for being so nasty to XM Radio.
